Proposal of the Inspector general for opening New schools from village school Fund (for 1899-1900)

In his letter No 10392/379 d 23/6/99 the I-Gl proposes to open 105 schools in villages throughout the State the distribution being by districts as per statement in para 1 of his letter

The Additional cost involved is Rs 873 per mensem or Rs 10,476 per annum

The Inspector General says that the schools are urgently required

The IGs suggestion to raise the allotment from the Local cess and the alternative proposal if such cannot be done have been put forth in the above Note

Submitted for orders

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

From

H J BHABHA Esq,

Inspector General of Education in Mysore

To

The Secretary to the Government of Mysore
in the General and Revenue Deptt,
Bangalore

Sir

I have the honour to inform you that in the Village School Fund Budgets of 1895-96 and 1896-97, Rs 7212 and Rs 1000 were respectively provided for new schools In the budget of 1898-99 no new schools were provided for for want of funds Applications for New Schools have been accumulating in my office, some of which have been received from Revenue Officers and the people, but most of which have been forwarded by the Deputy Inspectors of Schools with their recommendation Out of 189 Village Schools registered I have made a selection of 105 which are entered in the list enclosed herewith

Granted / vide footnote Please see Page 6 against new schools (95 96) Please see page 6 again + new schools (96-97) X

X Rs 616 were provided for for 1898/99 & what Mr Bhabha probably means is that the proposals remained unsanctioned -

The following is a tabular statement of the selected schools

District	Kannada Boys Schools	Kannada Girls Schools	Hindustani Boys'	Hindustani Girls	Panchama schools	Total
Bangalore	6		3			9
Kolar			3	3	1	7
Tumkur	19	6	4	2	4	35
Mysore	11		4	2	3	20
Hassan	3					3
Shimoga	14		1	2		17
Kadur	6					6
Chitaldroog	5		2		1	8
Total	64	6	17	9	9	105

The cost of the above 105 schools is estimated at Rs 873-4-4 a month or Rs 10,476 a year. Inland ✓ Statt for comment 6/11

2 The Receipts and Expenditure of the Village School Fund Budget have been usually estimated with such caution that year after year a considerable amount has been saved and the cash balance of the Fund on the 30th June 1899 is estimated to be Rs 3,17,961

3 On 30th June 1898, the percentage of boys under instruction in Mysore was 26·16 against 26·72 in Madras on 31st March 1897, while the percentage of girls under instruction was 4·29 against 4·32. Although the Mysore percentages do not compare unfavourably with those of Madras, in an

enlightened and flourishing Native State like that of Mysore which is well known for its zeal in promoting education among the people, the percentages may not necessarily be about the same as in British India, but should be higher, provided Government are pleased to sanction the necessary funds The field for the expansion of primary education in Mysore is vast and can be limited only by the amount of funds sanctioned

4 Under the above circumstances it will be for Government to decide how many of the above schools should be provided for in the Budget of 1899-1900 I am afraid the estimates of Receipts and Expenditure of the Budget of 1899-1900 will not show such an excess of Receipts over Expenditure as will suffice for increased expenditure on new schools if any are opened I would therefore × with reference to Para 3 of Order No. 7558/212 dated 5th January 1898 submit it for the consideration of Government if the time has now arrived for raising the percentage of the allotment from the Local Funds to Education as was contemplated by Section VI of the Rules for the Establishment

× perhaps -

Then as I am afraid not possible just now but the matter may be quietly considered at leisure

of Local Committees for the Administration of Local Funds in Mysore (See Mysore Revenue Manual of 1886 p 141) In Bombay 33 1/3 per cent of the Local Funds is allotted to Education The question of raising the percentage of the allotment has I believe to be considered sooner or later as it will be necessary in the near future to revise the scale of pay now in force in Village schools, which is too low when the present cost of living or the higher qualifications now required in the teachers are taken into account

(put up)

5 If the allotment from the Local Funds to Education can not be increased, I would recommend that the entire cost of all the Normal Schools may be borne by the Provincial Funds. The savings to the Village School Fund would in that case be Rs 20,306 minus Rs 7093 contributed from the Provincial Funds or Rs 13,213 net At the same time the cost of a few writers and peons in the Inspector General's office and the Book Depot amounting to Rs 1,848 which is now paid from the Village School Fund may be transferred to the Provincial Fund Budget These figures have been taken from the budget estimates of the Village School Fund for 1899-1900. x.

This question is a matter requiring not the Govt should address first separately with fuller details

In the foregoing letter the Genl. states that in the Budget of 1898-99 no new schools were provided for for want of funds, and that applications for new schools have been accumulating in his office. He observes that a

Provision of Rs 6/6/10
was made under this
head in that Budget

3 On the 30th June 1898 the percentage of boys under instruction in Mysore was 26 16 against 26 72 in Madras on 31 st March 1897 while the percentage of girls under instruction was 4 29 against 4 37 Although the Mysore percentages do not compare unfavorably with those of Madras in an enlightened and flourishing Native State like that of Mysore which is well known for its zeal in promoting education amongst the people the percentages may not necessarily be about the same as in British India but should be higher provided Government are pleased to sanction the necessary funds The field for the expansion of primary education in Mysore is vast and can be limited only by the amount of funds sanctioned

4 Under the above circumstances it will be for Government to decide how many of the above schools should be provided for in the budget of 1899 1900 I am afraid the estimates of receipts and expenditure of the budget of 1899 1900 will not show such an excess of receipts over expenditure as will suffice for the needed expenditure in new schools if any are opened I would therefore with reference to para 3 of Order No 7056—Fd 219 dated 11 January 1898 submit it for the consideration of Government if the time has now arrived for raising the percentage of the allotment from the Local Funds to Education as was contemplated by Section VI of the Rules for the Establishment of Local Committees for the Administration of Local Funds in Mysore (see Mysore Revenue Manual of 1886 page 141) In Bombay 33⅓ percent of the Local Funds is allotted to Education The question of raising the percentage of the allotment has I believe to be considered sooner or later as it will be necessary in the near future to revise the scale of pay now in force in village schools which is too low when the present cost of living or the higher qualifications now required in the teachers are taken into account

If the allotment from the Local Funds to Education cannot be increased I would recommend that the entire cost of all the New Schools may be borne by the Provincial Funds The savings to the Village School Fund would in that case be Rs 20 306 minus Rs 7,093 contributed from the Provincial Funds or Rs 13 213 net. At the same time the

cost of a few writers and peons in the Inspector General's office and the Book Depot amounting to Rs 1 848 which is now paid from the village school fund may be transferred to the Provincial Fund Budget These figures have been taken from the budget estimates of the village school fund for 1899 1900

No. 1943 44—ED F 43 96, DATED BANGALORE, 11TH AUGUST 1899

ORDER THEREON—In the foregoing letter the Inspector General states that in the budget of 1898-99, no new schools were provided for for want of funds, and that applications for new schools have been accumulating [illegible] It is observed that a provision of Rs 616 was made under this head in the budget and that the amount remained unutilized in that year

2. The Inspector General now submits for orders a list of 105 new schools estimated to cost Rs 10,476 per annum He is informed that the necessary provision has been made in the budget for the current official year subject to separate application being made and sanction obtained for the utilization of such sums out of the said provision of Rs 10,476 as may be required from time to time

In para 4 of the letter read above the Inspector General raises the question of increasing the percentage of the allotment from the Local Funds to Education and in the next para he recommends the alternative of the entire cost of all the Normal Schools being borne by the Provincial Funds and some further relief being given to the village school Fund These are matters which should not have been mixed up in the present communication The Inspector General will be so good as to address Government separately if necessary on each subject with fuller details
